

Discover Toluna Start

A powerful insights platform developed for consulting businesses

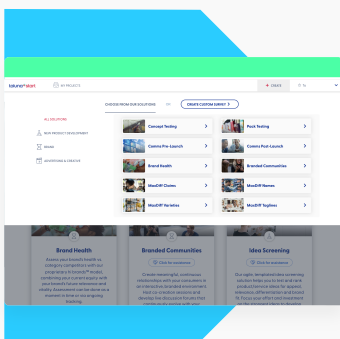

Toluna Start is an end-to-end data intelligence platform, developed specifically for consulting organizations. Combining the quality and robustness of traditional market research practices with the speed, agility, and flexibility of a SaaS platform, Toluna Start is the all-in-one research tool that provides everything you need.

Whether you offer **Due Diligence, Advisory or Market Assessment services**, Toluna Start delivers valuable primary insights that will enhance the proposition to your clients.

Toluna Start's subscription model allows you to pay as you go, so you only pay for what you use.

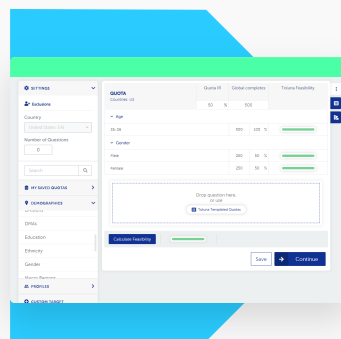

Conduct quantitative and qualitative research

Either through self-service solutions or custom research programs built with the help of research experts.

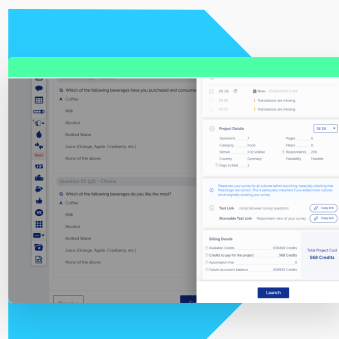

1. Create your survey

Easily build surveys with advanced scripting or choose from customizable templates. Your research, your way.

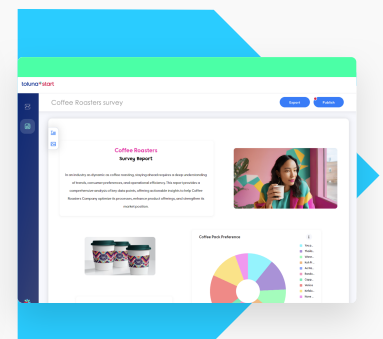

2. Target your audience with precision

Select from 400 demographic options or use your own contacts to reach your precise audience.

3. Launch your survey instantly

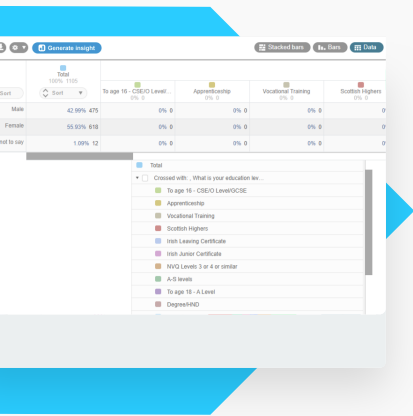

Invite respondents via email, social media, or our vast influencer panel. Launch your survey and obtain results with speed.

4. Simplify data analysis

Effortlessly segment, filter, and export your data. Use advanced visualization and analysis tools for deeper insights.

- ▶ Perform thorough market analysis in just hours to guide investment decisions.
- ▶ Assess new marketing initiatives, consumer demand, emerging technologies, and market trends to corroborate go-to-market (GTM) strategies
- ▶ Gather data and insights quickly to support strategic advisory services.
- ▶ Advise on market/brand strategies, M&A opportunities, pricing and competitive positioning.
- ▶ Assess new sector opportunities.
- ▶ Explore new geographical markets, identify niche industries, and evaluate market dynamics.
- ▶ Generate comprehensive data analyses on small sample or hard-to-reach targets with Toluna's AI-driven *HarmonAlze* suite.
